MEDICAL

Twist

Easily manoeuvrable twin wheel castor
with an easy-to-use brake pedal

 **manner**
SMART MOVES ON MANNER CASTORS

High-quality and stylish twin wheel castor for many different uses

EASY TO MOUNT

The castor is easy to fit with standard tools

INTUITIVE BRAKE PEDAL

Easy to use, total-stop brake

EASY TO MANOEUVRE

High-quality ball bearings ensure that the castor is easily manoeuvrable

We listened to our customers and designed a new product to match their requirements. Twist is an easily manoeuvrable and high-quality twin wheel castor for applications such as hospital beds and trolleys, medical chairs, furniture and other hospital and rehabilitation equipment. The castor is load-bearing and very sturdy, yet easy to manoeuvre.

The special feature of Twist is the intuitive brake pedal that clearly shows the status of the locking system and is easy to use. Two different heights make it easier to meet customer- and device-specific requirements. The Twist castor is available in conductive and stainless versions.

DESIGNED AND MANUFACTURED IN FINLAND.

The easy-to-use brake is not Twist's only special feature

- ✓ stylish appearance
- ✓ installation with standard tools
- ✓ minimal play in castor construction
- ✓ 100 and 125 mm castors are available with two different overall heights
- ✓ customisable to meet customer requirements
- ✓ easy to clean

Looks matter

The appearance matters, even for castors used in environments such as hospitals. The clinical appearance of the Twist castor looks hygienic and high quality. The standard colour is light grey (RAL 7035) with red brake pedal. Special colours and customised colours are available for orders of larger quantities. Contact us for more information.

Customisation

The Twist provides plenty of opportunities for customisation in orders of larger quantities. For example, the colour of the castor frame, pedal, centre and cover plate, as well as the logo, can be changed according to the customer's wishes.

Options include a swivel castor, a swivel castor with total-stop brake and a swivel castor with directional locking.

MOUNTING OPTIONS

- 10 or 12 mm bolt hole, top plate
- Customer-specific mounting options are also available

HIGH-QUALITY MATERIALS

- Fork and center are made of glass fiber-reinforced polyamide
- Polyurethane tread

Pure

Pure, honest, geometric forms and crisp material junctions create a unique wheel design.

Timeless

Timeless design that will adapt to different environments and needs.

Intuitive

Intuitive locking mechanism that is easy to detect and use.

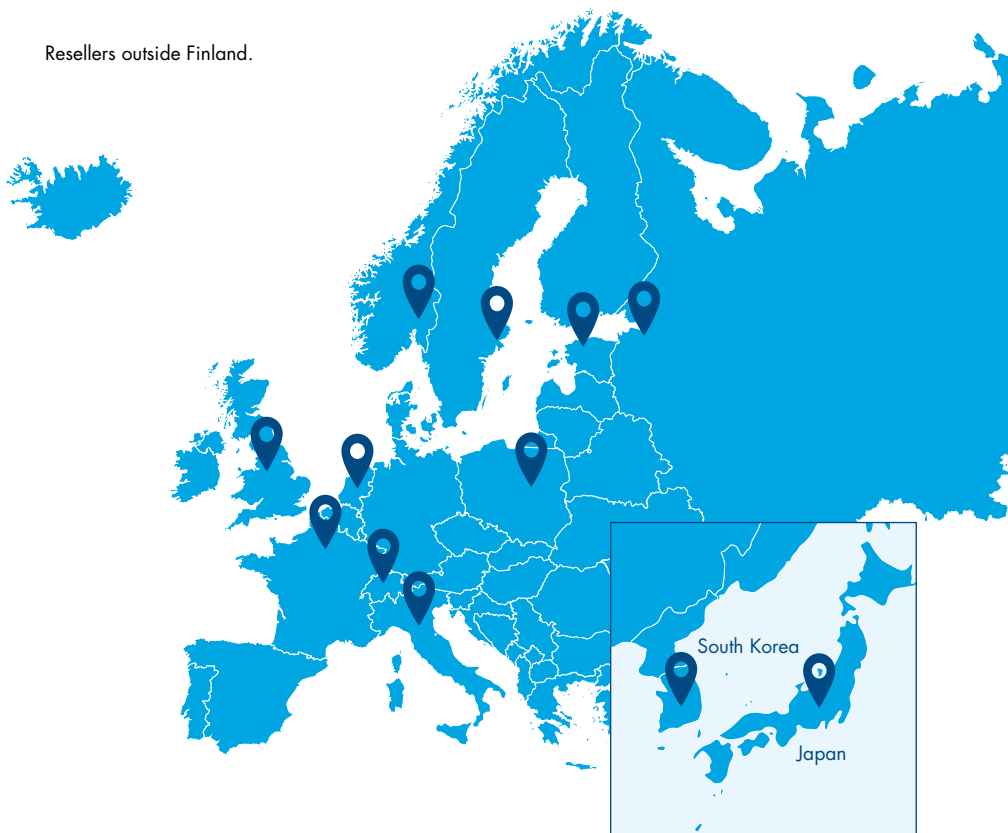

“

Guided by feedback from our customers, we wanted to create a castor with a brake that is easy to use.

Manner – looking after our customers since 1890

Manner is a traditional family-owned company founded in 1890. During its history, Manner has manufactured a wide range of objects, from tin household containers to radio masts and from woodworking machines to high-pressure water tanks. Manner has produced different types of castors since the 1950s.

Even with its wide range of products, Manner has always focused on the customer and professional services. Our flexible production model allows us to fulfil customer-specific requirements, and our long experience guarantees that every product off our production line is of the highest Manner quality.
